10th HELLENIC POLYMER SOCIETY CONFERENCE

Topics

The Conference will provide a forum for discussion on the most relevant topics in polymer science, advanced materials and new technologies, and aims to present a multidisciplinary scientific programme, bringing together scientists, engineers and industrial managements.

The Conference will include plenary/keynote talks, tutorials, invited lectures, contributed talks and poster sessions, and will address all major relevant topics of current and prospective interest covering the following main themes:

- **Polymer Synthesis and Macromolecular Design**
- **Polymer Hybrids and Nanocomposites**
- **Biopolymers and Biomaterials**
- **Polymers in Nanotechnology**
- **Stimuli Responsive Polymer Systems**
- **Polymer Physics and Advanced Characterization**
- **Modeling and Simulation of Polymers and Nanocomposites**
- **Applications of Polymeric Materials**

Paper Submission

Conference participants are invited to prepare a paper focusing on one of the thematic topics of the conference.

Two-page abstracts will be prepared in English according to specific templates provided by the organizers and submitted electronically to the conference Secretariat in DOC format.

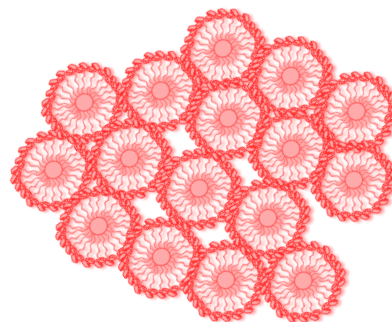

Important deadlines

Abstract submission: 15/9/2014

Notification of acceptance: 30/10/2014

Language

The official conference language is English.
